

STATE OF NEW JERSEY

ANNUAL REPORT

OF THE

**Commissioner
of Insurance**

**FOR THE YEAR ENDING
December 31, 1983**

**Part I
FIRE AND CASUALTY INSURANCE**

**Part II
LIFE AND MISCELLANEOUS INSURANCE**

DEPARTMENT OF INSURANCE,

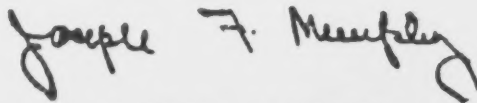

TRENTON, MARCH 1, 1984

To the Honorable the Senate and General Assembly:

As the statute requires, I herewith submit the report of the Department of Insurance for the year ending December 31, 1983, setting forth in two parts the financial condition and business transacted by all insurance companies and associations that are authorized to do business in this State on the above date.

Part I of the report contains a narrative history of the Department's activities in 1983 and the data relative to fire and casualty insurance companies, while Part II embodies that of life and miscellaneous companies and associations.

Respectfully,

A handwritten signature in black ink, reading "Joseph F. Murphy". The signature is written in a cursive style with a large, stylized "J" and "M".

JOSEPH F. MURPHY,
Commissioner of Insurance.

ANNUAL REPORT—1983

After years of impasse, a major breakthrough in reforming the state's expensive auto insurance system was achieved.

On October 4, 1983, Governor Kean signed a series of bills that give a new structure to auto insurance in New Jersey and finally make it possible for New Jerseyans, who pay the highest average premiums for auto insurance in the nation, to reduce their costs.

The keystone bill in the legislative package is the "New Jersey Automobile Freedom of Choice and Cost Containment Act of 1984." It offers New Jersey motorists a variety of options in choosing coverages.

The first option took effect December 3, 1983. It permits motorists to choose deductibles of \$500, \$1,000 or \$2,500 on the medical expense portion of their Personal Injury Protection coverage (No-Fault) at a premium reduction. Motorists with health insurance coverage who choose a deductible will be covered by their health insurance plans for the deductible, subject to their own deductibles or coinsurance payments.

The other options in the Freedom of Choice Act became effective July 1, 1984.

The major change is the choice between retaining the \$200 tort threshold under the no-fault law, which has been in effect since 1973, and choosing a \$1,500 threshold, which will be adjusted annually to reflect changes in the Consumer Price Index component for medical care services. Every named insured is required to choose one of the thresholds in writing on a form approved by the commissioner. Failure to return the form will keep the \$200 threshold in effect.

In addition, the named insured has the option of eliminating coverage for wage loss, essential services and funeral/death benefits under the Personal Injury Protection coverage, although they can be dropped only as a package and not individually.

A third option, called the "set-off", provides the opportunity for a further premium reduction. Under this provision, an insured must agree to reimburse his no-fault carrier from any recovery for non-economic losses for any medical expense benefits paid by the carrier not to exceed 20 percent of the non-economic loss award.

The auto insurance reform legislation signed October 4 also included a provision requiring the auto insurance companies to offer deductibles of up to \$2,000 on collision and comprehensive coverages and coinsurance options of 10 and 20 percent.

Other legislative measures approved provide for:

- Licensing of all auto body repair facilities in the state;

- Filing of a new financial disclosure and excess profits statement by all auto insurers;

- Establishing a system of arbitration under the New Jersey Supreme Court to process auto insurance cases involving accident cases involving less than \$15,000;

- Creating a Division of Insurance Fraud Prevention within the Department of Insurance.

The legislative reforms were approved after the rates for auto insurance rose again during the year. Effective January 11, a seven percent increase was approved for the companies of the Insurance Services Office, the major rating bureau, and the New Jersey Automobile Insurance Plan (Assigned Risk). A 15 percent increase was approved for an independent filer, the State Farm Mutual Automobile Insurance Company.

In addition, on June 1, an increase in the policy constant was approved on the recommendation of an administrative law judge after an extended public hearing. However, instead of the \$44 to \$58 per car charge recommended by the law judge, the increase was limited to \$19 per car for those cars with the mandated liability coverages and an additional \$14 for those cars with comprehensive and collision coverages, a total of \$33 for those with full coverage.

The use of a flat additional charge per car, which is referred to as a policy constant, was introduced in November 1980 as a means of offsetting losses in the New Jersey Automobile Insurance Plan (Assigned Risk). The additional charge was added to the existing policy constant, which now ranges from \$44 for the liability coverages to

\$70 per car for full coverage. It is charged to all cars, both voluntary and assigned risk.

The organizational meeting of the board of directors of the New Jersey Full Insurance Underwriting Association, which replaced the New Jersey Automobile Insurance Plan (Assigned Risk) January 1, 1984, was held on April 5. Creation of the association represented a major shift in the traditional approach to the problem of providing insurance to those persons unable to obtain it on the regular or voluntary market. Under the assigned risk concept, which was adopted in New Jersey about 40 years ago, each insurance company was required to accept assignments in proportion to the amount of voluntary business it did, and each company was individually responsible for servicing its policies and individually absorbing any losses in its assigned risk business.

Under the association concept, however, only a small number of companies, called servicing carriers and selected by the board of directors, write insurance for the non-voluntary market. These servicing carriers function in the same manner as the voluntary insurers except that they are not individually responsible for losses.

The association was created under terms of Assembly Bill 1696. Among its other features are a merit rating system that provides uniform surcharges in both the voluntary and non-voluntary markets for motor vehicle violations, a capping procedure that narrows the existing wide disparity in rates between the highest-rated territories and classes and the lowest-rated, and a discount for senior citizens.

For the third straight year, the premium rates for Workers' Compensation insurance decreased in 1984, while the benefits payable to injured workers increased. The decrease, which averages 11.1 percent and produces a net premium reduction of approximately \$44 million, was made possible by the favorable loss experience of the insurers in 1982, the year on which the 1984 rates were based. The favorable experience was largely due to cost-saving reforms introduced in 1980, the increased rate of growth of the state's economy and the continuing shift in New Jersey industry from a manufacturing to a high-technical environment.

**Comparisons For
All Insurance Companies**

COMPARISONS
